Dear Harold,

Hope this letter finds you in good health. I've been swamped at work and haven't had a chance to get this stuff to you until now. I've started a new writing job on a new show called "The Fanelli Boys" and it takes alot of time and energy to get things off the ground.

I'm sending you a few articles dealing with Robert Kennedy's assassination. Also a very laughable one from the scandal sheets claiming JFK is still alive. And then three articles dealing with this Ricky White who claims his father was a CIA man who got hired as a Dallas cop in Sept. 1963 and shot JFK. I also heard this radio talk show on KFI in L.A. (the host is a guy called Tom Lykus). White was on with his story and Robert Grodin was also on giving creedence to the tale. I find it hard to believe from what I heard. I can't figure why Grodin is so quick to back these guys. What do you make of it?

Other than that, I've been following baseball. The Reds have made a marked improvement over last year. There have been some touch and go momments, but I think they will take their division. Baltimore isn't out of it, but I think last year was a fluke and then really need a couple of season to put it together. But there's no question they have the makings of a good team.

Hope all is well with you. And if you get a chance drop me a line.

Best wishes

Robert
